Chapter V Behavioral Questions

Know Your Technical Projects

Talk about how:

The project had challenging components

You played a central role in its development

Talk about it at technical depth

Questions to ask the interviewer

These questions give you an idea of what day-to-day life is like at the company:

- What is the ratio of testers to developers to program managers? What is the interaction like?
- How does project planning happen on the team?
- What brought you to this company? What has been most challenging for you?

These questions demonstrate your knowledge of understanding of technology:

- I noticed you use technology X. How do you handle problem Y?
- Why did the product choose to use the X protocol over the Y protocol?

These questions demonstrate your passion for technology. They show they you're interested in learning:

- I'm not familiar with technology X, but it sounds like a very interesting solution. Could you tell me more about how it works?

S.T.A.R.

"Tell me about a time when..."

"Give me an example of..."

"Have you ever..."

"Describe a situation..."

Start off outlining the situation, explain the actions you took, describe the results.

SITUATION

Set the scene and give the necessary details of your example.

TASK

Describe what your responsibility was in that situation.

ACTION

Explain the steps you took to address it.

RESULT

Share what outcomes your actions achieved.

This should be succinct.

| | Situation 1 | Situation 2 | Situation 3 |
|-----------|-------------|-------------|-------------|
| Capture | | | |
| Situation | | | |
| Task | | | |
| Actions | | | |
| Results | | | |
